1.

Applicant's election with traverse of Group I in Paper No. 7 is acknowledged. The traversal is on the ground that the restriction was mistakenly given under 35 USC 121. The argument is persuasive. Accordingly, the restriction requirement given in the prior Office action is withdrawn and a new restriction under 35 USC 121 and 372 is given as stated below.

2.

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in response to this action, to elect a single invention to which the claims must be restricted.

Group I, claims 1 and 2, drawn to producing microfiber webs.

Group II, claims 3 and 4, drawn to microfiber webs.

The inventions listed as Groups I and II do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical feature(s) or the special technical feature(s) does not define a contribution over the prior art, i.e. the special technical feature(s) is anticipated by or obvious in view of the prior art for the following reasons: the International Search Report lists two category "X" references relating to claims reading on the special technical feature, viz. the precursor copolymers of the Group I microfibers, which equates with lack of novelty under PCT Rule 13.1. Accordingly,

Art Unit: 1713

there is a reasonable basis to believe that the claimed microfibers are anticipated or obvious in view of the prior art.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(I).
